**Please remember students must reapply for an off campus physical education waiver each school year to be considered for the program.**

**HUMBLE INDEPENDENT SCHOOL DISTRICT  
OFF-CAMPUS Physical Education (OCPE)  
INFORMATION FOR PARENTS**

To maintain compliance with the Texas Education Code, Humble ISD offers students a waiver process for OCPE programs. This waiver process consists of Category 1 (15 hours) and Category 2 (five hours) for high school and middle school.

Request for waivers for approval of private or commercially sponsored physical activity programs will be considered in two categories. These are:

**CATEGORY 1 -OLYMPIC TRAINING: is available to Middle School and High School students.**

(Waiver requests considered under this category must be approved by the local Board and submitted to the Texas Education Agency for final approval.)

- Private or commercially sponsored physical activity programs that lead to **Olympic-level** participation and/or competition. These programs typically involve a **minimum of 15 hours** per week of highly intense, professionally supervised training. The training facility, instructors, and the activities involved in the program must be certified by the Superintendent or his/her designee to be of exceptional quality.
- Students qualifying and participating at this level may be dismissed from school one period per day for such participation. Students dismissed must not be permitted to miss any academic class to fill out a regular day in lieu of leaving campus for OCPE.
- **The OCPE students should leave the campus one period prior to the end of the day or not check in to school until the second period of the day. There will be no supervised areas for these students to stay on campus for the unassigned class period and will result in immediate dismissal of the OCPE Program.** Students who discontinue OCPE Category 1 during a semester will be enrolled in a regular physical education class for the remainder of the semester to complete the credit in physical education for that semester.
- It is anticipated that only a very limited number of students will qualify for this exceptional level of participation.
- The credits being earned for graduation requirements are to be taken during the students' high school enrollment period.
- Students participating at this level may receive a maximum of **one-half** credit per semester. A total of **one credit** may be earned toward state high school graduation requirements or **four semesters** for middle school PE requirements.

**CATEGORY 2: is available to Middle School and High School students.**

(Waivers in Category 2 must be approved by the local Board but **do not** require submission of approval of the Texas Education Agency.)

- Private or commercially sponsored physical activity programs as certified by the Superintendent or his/her designee to be of high quality, well supervised by appropriately trained instructors, and consisting of a **minimum of five hours** per school week.
- Students participating at this level may receive a **maximum of one-half** credit per semester. A total of **one credit** may be earned toward state high school graduation requirements or **four semesters** for middle school PE requirements.
- Students certified to participate at this level **may not** be dismissed from any part of the regular school day.
- The credits being earned for graduation requirements are to be taken during the students' high school enrollment period.

I request permission from the Humble Independent School District for my child to receive physical education credit for active participation in the OCPE program.

I understand that the commercial facility named herein will satisfy the Texas Education Agency requirement for physical education instruction and submit the attendance/grade report form (via fax to campus registrar at the end of each semester). To access the Semester Attendance/Grade Report go to <https://goo.gl/QRtm6Q>. My child's middle school requirements may be satisfied through participation in an approved off-campus program. The grade earned by the middle school student will be pass/fail. The grade earned by the high school student will be a numeric grade.

I have been informed that if, for **any reason**, my child does not complete the entire semester/trimester, he/she **will not receive any partial credit**.

Furthermore, I acknowledge that the Humble Independent School District will not provide transportation to or from the establishment, does not endorse any commercial training program, and the approval of this application does not constitute any assurance as to the qualifications of the instructors or to the quality and/or safety of the equipment and facilities.

The undersigned is the parent or legal guardian of the named student. He/she is a student in the Humble Independent School District and I do hereby consent to said student participation in the commercial training program. I further agree to hold the Humble Independent School District, its Board of Trustees, administration, and/or faculty **harmless from all liability for any injuries** which said student may receive while participation in this program or while traveling to and from such program.

I also understand that if my child is approved for Category I **They must leave the campus one period prior to the end of the day or not check in to school until the second period of the day. There will be no supervised areas for these students to stay on campus for the unassigned class period thus resulting in immediate dismissal of the OCPE Program. My child will also be responsible for completing the annual fitness assessment that may require him/her to attend before, during, or after school testing sessions.**

I hereby acknowledge my understanding of this document with my signature below.

TAI – CHI – CHUAN - Testimony

Since earning (2<sup>nd</sup>) Black Belt in Tai – Chi – Chuan on 27 February 2016 from Master Wang – Wang’s Martial Arts, I decided I wanted to reach out and give back to the community by teaching Tai – Chi classes at Retirement Centers in Kingwood, Texas.

Currently I am teaching four (4) times a month or once per week at Watercrest Retirement Center and eight (8) times per month or twice per week at Brookdale Retirement Center. Both facilities are in Kingwood, Texas.

It is personally gratifying to me to see other people’s personal health and well being changed for the better as a result of practicing Tai – Chi.

## Raw fruit and vegetables provide better mental health outcomes

Posted on May 7, 2018 in [Featured News](#), [Health](#)

The study surveyed more than 400 young adults — an age group with typically the lowest fruit and vegetable consumption and at high risk for mental health disorders. Image: Shutterstock

*New study identifies the top 10 raw foods related to better mental health: carrots, bananas, apples, dark leafy greens such as spinach, grapefruit, lettuce, citrus fruits, fresh berries, cucumber, and kiwifruit.*

— By University of Otago

Seeking the feel good factor? Go natural.

That is the simple message from University of Otago researchers who have discovered raw fruit and vegetables may be better for your [mental health](#) than cooked, canned and processed fruit and vegetables.

[Dr. Tamlin Conner](#), Psychology Senior Lecturer and lead author, says public health campaigns have historically focused on aspects of quantity for the consumption of fruit and vegetables (such as 5+ a day).

However, the study, published in [Frontiers in Psychology](#), found that for mental health in particular, it may also be important to consider the way in which produce was prepared and consumed.

“Our research has highlighted that the consumption of fruit and vegetables in their ‘unmodified’ state is more strongly associated with better mental health compared to cooked/canned/processed fruit and vegetables,” she says.

Dr. Conner believes this could be because the cooking and processing of fruit and vegetables has the potential to diminish [nutrient levels](#).

“This likely limits the delivery of nutrients that are essential for optimal emotional functioning.”

---

**Related:** [Organic food provides significant environmental benefits to plant-rich diets](#)

---

For the study, more than 400 young adults from New Zealand and the United States aged 18 to 25 were surveyed. This age group was chosen as young adults typically have the lowest fruit and vegetable consumption of all age groups and are at high risk for mental health disorders.

The group’s typical consumption of raw versus cooked and processed fruits and vegetables were assessed, alongside their negative and positive mental health, and lifestyle and demographic variables that could affect the

association between fruit and vegetable intake and mental health (such as [exercise](#), [sleep](#), unhealthy diet, chronic health conditions, socioeconomic status, ethnicity, and [gender](#)).

"Controlling for the covariates, raw fruit and vegetable consumption predicted lower levels of mental illness symptomology, such as [depression](#), and improved levels of psychological wellbeing including positive mood, life satisfaction and flourishing. These mental health benefits were significantly reduced for cooked, canned, and processed fruits and vegetables.

"This research is increasingly vital as lifestyle approaches such as [dietary change](#) may provide an accessible, safe, and adjuvant approach to improving mental health," Dr. Conner says.

Especially effective against diabetes, new medical programs are giving fresh groceries to low-income patients—and saving everyone money

## When Is Healthy Food The Best Medicine? When It's Free

BY ASHLEY LEWIS

☞ THAT OLD SAYING “An apple a day keeps the doctor away” may hold some truth. In fact, one study found that in 2012, almost half of the deaths in America caused by heart disease, stroke, and type 2 diabetes were linked to poor diet.

But knowing you should eat healthfully and actually doing it are two different things, and making the right choice isn't any easier when a pound of grapes costs more than twice as much as a pound of pasta. The Fresh Food Pharmacy aims to change that. A pilot program created by the

Geisinger Health System, a hospital network in Pennsylvania and southern New Jersey, this pharmacy resembles a grocery store stocked with fresh produce, lean meats, canned beans, and more. Even better, it's all free.

Under the program, patients with type 2 diabetes and qualifying income are prescribed a week's worth of food for their entire household, and dietitians show them how to transform it into healthy meals. After the first year, all 180 participants had improved in key health measurements, in particular their

hemoglobin A1c levels (HbA1c), the gold standard for tracking blood sugar control.

In 2012, the estimated costs associated with diabetes in the United States were \$245 billion. Geisinger will spend only about \$1,000 annually on each food-pharmacy patient. David Feinberg, Geisinger's president and CEO, calculates that "a decrease in HbA1c of one point saves us about \$8,000." With many of the patients dropping three points, the program could save \$24,000 (or more) a year in health-care costs—as well as reduce the risk of amputation, blindness, and other complications.

Geisinger isn't the only organization experimenting with produce prescriptions. Nonprofits, food banks, hospitals, and even doctors' offices around the country have implemented programs that bring the

"food is medicine" concept to life. Boston Medical Center's Preventive Food Pantry was the first such program in the country when it opened in 2001. Today it serves approximately 7,000 patients a month.

In 2010, the nonprofit organization

Wholesome Wave started the Fruit and Vegetable Rx program. Doctors give each family member \$1 per day to spend at a participating farmers' market or grocery store. The program has helped more than 11,000 low-income patients; in 2014, almost half decreased their body mass index,

thus lowering their risk for heart disease, some cancers, and many other health conditions. A new Johns Hopkins study estimates that losing weight can save up to \$16,000 per person in direct medical costs, depending upon age and the amount lost. How do you like them apples? **R**
